

I cannot say enough about how much CP Rochester has impacted my life and opened my eyes to a whole new community I did not know existed.

I believe that CP Rochester was the one of the best Service-Learning sites that was offered in my class and I am so thankful that I was able to give something back to such a great organization. Also, being able to work within this community was an awesome experience that I am lucky to have had, because without this type of Service Learning class I would not have had this opportunity due to my major.
