## *Playing to Learn: No Child Left On Their Behind*

Active Learning for the Body and the Brain

Presented by

### Sharron Krull

Teacher, Trainer, Consultant, Author & Play Guru

October 16 & 17, 2009  
Knights of Columbus  
Webster, NY

Discover activities that stimulate the young child's brain and promotes language, literacy, fine motor, gross motor, creative, cognitive, and social/emotional development. Hands-on activities will support presented theory and provide participants with tools that they can implement immediately.

# Conference Schedule

## Friday, October 16<sup>th</sup>

8:00-9:00 Registration with Continental Breakfast provided

8:45-9:00 Opening Remarks, Brian C. Klafehn, President,  
CP Rochester

### 9:00-12:00 *Playing to Learn*

- ◆ Understand the importance of play as a means of learning.
- ◆ Become literate in the general structure and function of the brain.
- ◆ Create an environment that is more compatible with how the brain functions.
- ◆ Learn and apply latest thinking on brain development and its connection to movement and physical activity.

12:00-1:00 Buffet Lunch provided by J&K Catering

### 1:00-4:00 *Play Power*

- ◆ Understand and apply research about brain development and its connection to movement, physical activity, play and learning.
- ◆ Learn how to provide and create movement learning environments and curriculum.
- ◆ Explore the integration of physical activity while addressing language, literacy, math, science, social studies, and the arts.
- ◆ Learn by playing: explore hands on activities and games.

Day 1 of this course is offered for .6 ASHA CEUs  
(Intermediate level, Professional area)

Day 2 of this course is offered for .5 ASHA CEUs  
(Intermediate level, Professional area)

**Special thanks to Flower City  
Down Syndrome Network  
for their support.**

# Educational Objectives

Early Childhood educators and therapists can guide children's learning by ensuring that the environment is emotionally appropriate; invites play, active exploration and movement by children to address physical, social-emotional, language and cognitive needs. This workshop will address curriculum based on these basic principles of development and learning for the young child. It will focus on indoor and outdoor play and the use of the natural environment as the basis for curriculum for toddlers through Kindergarten. By the end of the session, participants should be able to:

1. Describe the connection between play and multi-disciplined learning in the early care and education of young children.
2. Describe how to maximize outdoor activities thereby opening up new possibilities for stimulating children's creativity, self-discovery, and imagination, even with limited outdoor spaces and resources.
3. Identify ways to promote cognitive, social-emotional, physical and language development in young children through movement and active play.

**Sharron Krull** is a high energy and dynamic Early Childhood Educator. She received a B.S. in Elementary Education from Miami University of Ohio. Sharron's teaching experience spans over thirty-eight years and encompasses nearly all areas of early childhood education. She is a veteran preschool teacher having taught and directed at parent cooperative preschools for over 20 years. She has taught parent education classes, school-age childcare programs, park and recreation programs, and elementary school. She has been a Child Development Instructor at several California Community Colleges as well as a trainer, speaker, and writer. Sharron is currently an Early Childhood Educational Consultant for Discount School Supply and is a member of the national training team for I Am Moving, I Am Learning, a childhood obesity prevention initiative from The Office of Head Start.

Sharron travels across the country conducting workshops, seminars and keynotes as an advocate for children and their right to a childhood of playing, moving, and learning. Sharron's advocacy for children and her desire to share with other teachers and parents led her to co-author two teacher resource books: *Circle Time Activities for Young Children* and *Play Power: Games and Activities for Young Children*. She's also produced two instructional videos by the same titles. Her latest book, *That Was the Best Party Ever! How to Give Birthday Parties Kids Will Never Forget* explores the planning and conducting of celebrations for kids from an educator's perspective.
